2026/27 Rev.1

About Us

Founded in 2020, Tidal Links has established itself as a leader in sustainable golf accessories, committed to raising awareness around the issues of ocean plastic - the first of its kind in the golf industry. Tidal Links was born from curiosity. When it was discovered that ocean plastic collected from a local beach clean event was going to be sent to landfill, it sparked a passion for using ocean plastic in a positive manner to raise awareness around the issues it presents.

"Growing up on the coast and playing links golf all my life, I've always understood the connection between the coastline and golf. Scotland boasts some of the worlds most iconic and best links golf courses in the world, and sadly every one of them is impacted by ocean plastic."

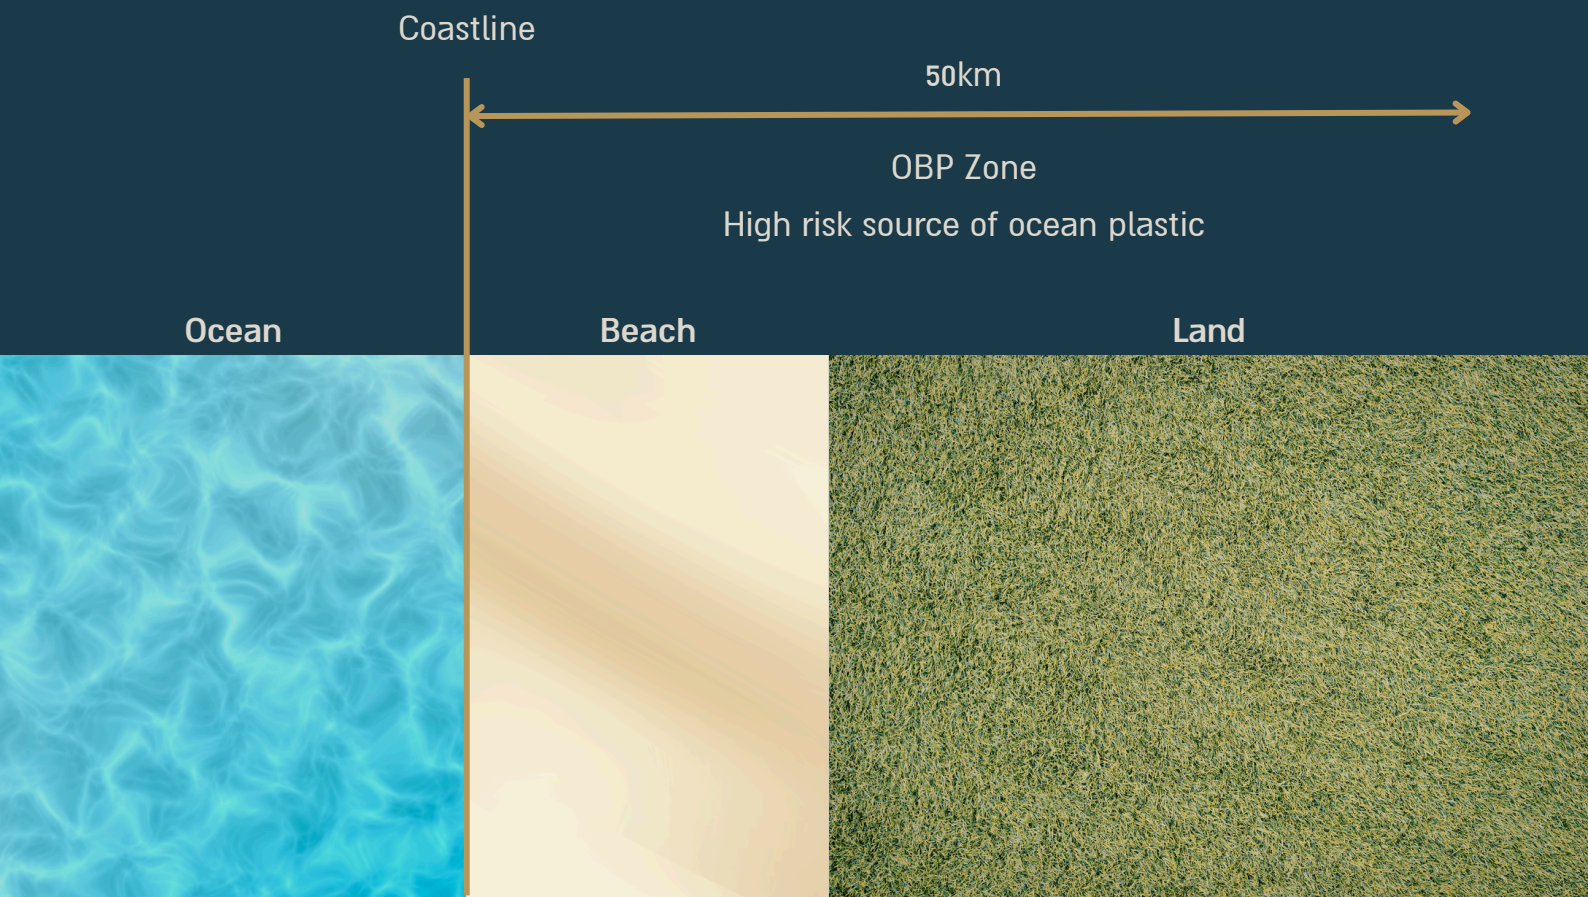

Kevin Watson - CEO / Founder

From this point, the Tidal Links journey began, expanding from a small headcover range, to the range of products offered today.

What's In Our Products?

Our complete product range is made from Ocean Bound Plastic (OBP). OBP is classified as mismanaged plastic waste that is located within 50km of the coastline. This is deemed to have a high probability of ending up in the ocean and Tidal Links are passionate around intercepting this type of plastic before it enters the ocean.

Plastic that has already entered the ocean is difficult to recycle and still achieve the necessary quality requirements for quality products. We still look to collect ocean plastic as part of non-profit initiatives, but this plastic does not make its way into our current product range. Our Ocean Bound Plastic fabrics are certified by Zero Plastic Oceans.

Testimonials

"This is the third season we have offered Tidal Links products in our pro shop. Their high quality and popularity with both members and visitors have made them a strong addition to our core range. They support our sustainability initiatives at Dornoch and our wider commitment to protecting the landscape, and we look forward to continuing the relationship."

Brad Smith - Retail Manager - Royal Dornoch Golf Club

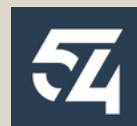

"Tidal Links headcovers have been a standout addition to our retail offering this year. Member feedback has been overwhelmingly positive, and sell-through has exceeded expectations. We required additional stock by mid-May due to strong demand. From initial design to production and delivery, the entire process has been seamless, making Tidal Links an exceptional partner to work with."

Steve Burrige - Head Professional - The Richmond Golf Club

"Our Tidal Links selection of products not only appeal to visitors with their quality, but also resonate deeply with the ethos of environmental stewardship and sustainable living that we at Cabot Highlands, along with the entire Cabot family, hold in high regard."

Jeremy Matte - Director of Golf - Cabot Highlands

Who We Work With

Frequently Asked Questions

Q: Where are Tidal Links products made?

A: Everything in our supply chain, from plastic collection, to recycling and textile manufacturing, to final assembly is all handled through out partners in India, who are World Fare Trade Organisation certified.

Q: Are the products certified?

A: Yes, our ocean bound plastic materials and fabrics are certified by Zero Plastic Oceans, which verifies plastic origin throughout the supply chain. As a result our products carry the OBP certified label.

Q: Can you provide recycled plastic metrics along with our order?

A: Yes, we're able to provide equivalent recycled plastic bottle metrics that show how many equivalent 1 litre plastic bottles were intercepted and ultimately used in your order.

Q: Can you develop something new just for us?

A: We're always happy to understand the needs of our customers and can offer product development and design support to cater for specific needs. These are considered on a case-by-case basis. Design fees may be stipulated depending on the project and scale. Let us know what you're looking for and we can explore opportunities from there.

Fabric Range

ReClaim

ReClaim has water resistant properties and is a hard wearing fabric suitable for multiple applications.

TideKnit

TideKnit has a cotton like feel, which is soft yet durable. Can be customised with prints and designs using sublimation.

MarineCord

MarineCord has a deep woven cord construction offering a retro/classic finish. This fabric is always finished in a patch for custom orders.

OceanGuard - **BRAND NEW**

OceanGuard fabric is our new premium recycled TPU offering to customers, which acts as a sustainable alternative to leather and synthetic leathers.
